

Since 1950... it's all we do.

BEST MATERIALS, BEST EQUIPMENT & BEST QUALITY CONTROL

Advanced manufacturing techniques including fully automated production assembly insure each BBI battery meets or exceeds its rated power capacity

- ✓ Low antimonial grid design provides the greatest power potential and lowest possible internal resistance factors
- ✓ BBI's oversized grids deliver rated power capacity and performance throughout the entire life expectancy of the battery.
- ✓ Best quality plastics and fiberglass materials are used to insulate the positive plate insuring highly efficient electrochemical reaction and the elimination of internal shorting.
- ✓ BBI's "Post and Bridge" design, the key for energy transfer point are oversized for cooler operating batteries able to handle the high charge currents of "Opportunity and Fast Charge" applications.
- ✓ Over 150 quality control inspections provide consistent BBI Battery performance and life backed by a 5 year full warranty

BBI IN-STOCK QUICK SHIP BATTERY
